

Letter of Recommendation

To whom it may concern,

Giulia Frizzi worked under my supervision as an intern for All That Matters from June 2025 to August 2025 and after being an immense help and support to the Design team was afterwards employed as a part time designer.

Giulia has, from her first day, always had a meticulous and problem solving attitude to any assignment given. Her professional approach comes with our highest recommendation.

Giulia assisted the Design team in various projects spanning from concept design, working drawings, 3D modelling and visualisations. She worked in the Adobe programmes, Autocad, Sketch up and Enscape. Giulia quickly demonstrated fast learning ability and strong attention to detail. Throughout her time with us, Giulia has shown remarkable independence in the tasks assigned to her and had a good eye for the aesthetic details bringing great input to the overall design with his architectural background. Giulia has demonstrated exceptional skills in product design and development that has been a great asset to the company.

Overall Giulia has a very positive attitude and is always ready to take on new challenges, was always prompt and precise in her hand-ins and her curiosity posed good questions in finding the best solutions for the assignment at hand. Some projects had extremely short deadlines and Giulia proved to be extremely hard working and helped the team make all the deliveries on time.

Giulia has been an indispensable help in our design studio and we are sure that she has a very bright future in the world of design and interiors.

Sincerely,

Anders Faarborg

Head of Design and Company owner,
